

ENVIRONMENTAL POLICY

In the scope of our activities involving the production of dyes and chemical products for the leather and textile industries, COLORANTES INDUSTRIALES, with the goal of adopting an environmental management system based on our responsibility and concern for the planet, commits to the following principles:

1. Understand, comply with, and respect the current environmental legislation, regulations, and applicable provisions related to our activity, as well as other requirements connected to environmental aspects.
2. Ensure that environmental protection and pollution control are integrated into our work methods by:
 - Applying the best available and economically viable techniques.
 - Minimizing significant environmental impacts through the promotion of an adequate management of energy, discharges, atmospheric emissions, and waste.
 - Focusing on achieving a rational and sustainable use of natural resources.
3. Focus on the continuous improvement of our environmental performance.
4. Commit to a continuous training of our staff to improve their engagement and competence in performing their tasks with an environmental respect criteria.

This policy is publicly available, documented, implemented, and periodically reviewed for its adequacy. It is shared with our staff and interested parties and it provides the framework for establishing and reviewing the stated environmental objectives.

Sincerely,

COLORANTES INDUSTRIALES, S.A.
